Glow — an all night cultural experience

Glow is an all-night cultural experience featuring original commissions by artists that re-imagine Santa Monica Beach, California as a playground for thoughtful and participatory temporary artworks. Visitors waited to see the creation of French artist Mathieu Briand titled '6:43 p.m.' during the Glow 2013 on Sunday. Visitors also explored the creation of artist Janet Echelman 'The Space Between Us' during the event. Hotel Casa Del Mar shone brightly throughout. Swarm of interactive jellyfish created by the group of artists Aphidoidea was a major source of entertainment there. Lights were reflected on the water at Santa Monica's Pier during Glow 2013, while some visitors had a picnic and enjoyed themselves thoroughly. afp
