

Target Swooping V, 2004

Art Rotterdam, Rotterdam, Netherlands

Net connects the Rotterdam Cruise Terminal to the Waterfront.

Materials: Hand-knotted synthetic net.

Size: 60' x 130' x 45'

Description: This project created a visual and physical connection between the Rotterdam Cruise Terminal and the Port of Rotterdam, the largest port in the world. Sound element was created when strong winds blow against net sculpture. Weight from snow and sleet change the shape of the sculpture.
